Got the Employee of the Month title on the very first month of the job.

Employee of the Month (08/2021)

Got the Employee of the Month title.

PERSONAL PROJECTS

CHATTING APPLICATION

- This project involves the development of a real-time chatting application using the MERN stack (MongoDB, Express.js, React.js, and Node.js). The application provides a seamless and user-friendly platform for users to communicate with each other via text messages in real time. It includes features such as user authentication, one-on-one chat etc.
- Tech Stack: React, MongoDB, Express, HTML, CSS, Tailwind CSS etc.
- <https://chat-app-hotq.onrender.com>

PORTFOLIO WEBSITE

- My Personal Portfolio Website project is designed to create an online platform that showcases my professional work, skills, experiences, and achievements. The site is fully responsive, ensuring it looks and functions well across all devices
- Tech Stack: HTML, CSS & Tailwind CSS.
- <https://kushal4369.github.io/My-Portfolio/>

Weather App

- A weather app that provides users with real-time weather information for any location. The app allows users to search for current weather conditions and access detailed data such as temperature, humidity, wind speed, and more.
